M.Sc MEDICAL LABORATORY TECHNOLOGY

In Affiliation to

The Tamil Nadu Dr. M.G.R. Medical University

The Sankara Nethralaya Academy

The Sankara Nethralaya Academy is the academic arm of Sankara Nethralaya, Unit of Medical Research Foundation, a tertiary eye care centre for patient care, research and training organisation. The SN Academy is avowed to employ a system of educating people, imparting knowledge through instruction courses, training classes, and usher in newer training/teaching methodologies in the health sector. With an objective to create professionals who are competent and confident to face the challenges in the modern healthcare industry.

Objectives of the program

Medical laboratory technologists serve as a member of the healthcare team, performing laboratory tests related to the diagnosis, treatment and prevention of disease. They work in an interesting and dynamic environment using high-tech instruments to analyze samples and generate information with accuracy and quality control which assists the healthcare professionals.

There is always a high demand for trained lab professionals and with the advent of accreditation to laboratories the need for competent, skilled medical laboratory technicians is high and is expected to increase significantly in the coming years. To enable this, TSNA offers Master of Science degree programme in Medical Laboratory Technology (M.Sc.M.L.T.) affiliated to Tamil Nadu Dr MGR Medical University, Chennai.
